Our Lady Star of the Sea School
Physical Activity Policy

Purpose
Our Lady Star of the Sea School acknowledges the importance of physical activity as essential for optimum physical development and establishing behavioural habits that are crucial to lifelong health and wellbeing.

This policy confirms our commitment to:

• increasing the activity levels and wellbeing of the school by providing a supportive environment that encourages and enhances physical activity opportunities.
• promoting the importance of a healthy lifestyle, which includes being physically active every day.
• ensuring that relevant mandated requirements for physical education and sport are incorporated into the curriculum.

As a health promoting school, we will support the physical activity of students, staff and families through learning, policies, creating a safe and healthy physical and social environment and developing community links and partnerships.

Policy statement

Background
Physical activity for children and young people is recognised as essential for their optimum physical development, and for establishing behavioural habits that are crucial to life-long health and wellbeing.

Whole school engagement
It is recognised that every adult member of Our Lady Star of the Sea has an impact on students’ health and can contribute to creating an environment that promotes physical activity. All members of our school community including staff, students, families and volunteers will be supported to meet this policy.

Definitions
Physical activity: Includes sport, incidental exercise and many other forms of recreation. The Australian Physical Activity Guidelines recommend a combination of moderate and vigorous activities for at least 3 hours a week (Year 4-6) and 20-30 minutes a day (Prep-3) for children and young people (5 – 18 years old).

Procedures

Healthy policies
• Staff and families are involved in the development and implementation of the whole-school physical activity policy and are seen as key partners in promoting and supporting physical activity in the school.
• Staff, families and students are provided with information about policy requirements.
• Fundraising activities and social sporting activities reflect the physical activity policy and promote healthy lifestyle messages, such as fun run and jump rope for heart.

Healthy physical environment
• A range of play equipment and environments are provided, which encourage physical activity at break times, and before and after school. The equipment and environment cater for diverse ages, and the abilities and interests of all students.
• Active travel to and from school is encouraged and promoted to all members of the school community. The school will provide facilities for the safe and secure storage of equipment that encourages active travel, such as bikes and helmets.
• Students will be encouraged to use appropriate and properly fitted protective equipment when participating in sport, such as mouthguards and shin guards.

Healthy social environment
• The school promotes physical activity, which encourages inclusiveness and participation, in addition to performance.
• Staff and families recognise they are role models and are encouraged to actively engage in physical activity and active travel.

Learning and skills
• Our Lady Star of the Sea complies with the appropriate sector requirements for physical and sport education (20-30 mins daily for Prep to Year 3, 3 hours a week for Year 4-6). Staff will ensure physical activity is incorporated into the curriculum, across a range of domains.
• Staff are supported to access resources, tools and professional learning to enhance their knowledge and capacity to promote physical activity across the curriculum.
Engaging children, young people, staff and families

- Students are consulted about physical activity initiatives via house leaders.
- Families and staff are, on a regular basis, provided with information, ideas and practical strategies to promote and support physical activity at school and at home.
- Families and students from culturally diverse backgrounds are engaged as required to ensure cultural values and expectations about physical activity are respected.

Community partnerships

- The school will work with local health professionals, services and sporting school organisations to increase capacity to deliver and promote physical activity initiatives.
- Students are actively encouraged to take part in after school physical activity programs.
- Links are established with local community sports and recreation services to create and strengthen opportunities for students to participate in physical activity outside of school hours.

Monitoring and review

The Physical Activity Policy will be monitored and reviewed by the staff, School Education Board and the Student Wellbeing Core Team at least once every three years.

Ratified by the School Education Board Meeting, Wednesday 9 March 2016
